

Singing Surgery Day

A pick 'n' mix selection of quality training to help you use the power of singing to **transform the life of your primary school**. Sessions are **aimed at ALL teachers in your school – not just the Music Coordinator!**

We know it can be difficult to attend a full day of training sometimes, so we're offering a range of sessions across a whole day for you to choose from. **Come to a full day, half a day, or just a single workshop.** You can also share the sessions out among different members of your staff so that the right people can benefit.
